

Reed Analytical Solutions: Cyber Incident Response Expansion

- **Current Company Overview:** Reed Analytical Solutions is a key subcontractor for defense contractors, preparing to transition into prime contracts and strategic partnerships.
- **Proposal for a New Department:** Launch of a specialized department offering remote cyber incident response services.
- **Team Composition:** Initial team of 5 members, experienced in cybersecurity, ready to manage commercial incident response projects.
- **Compensation Model:** Project-based compensation ensuring equitable pay among team members, independent from the company's primary financial structure.
